

**DELAWARE RIVER BASIN COMMISSION**  
**APPLICATION STATUS PAGE**  
**AS OF SEPTEMBER 15, 2006**

| Anticipated Commission Meeting (subject to change - refer to hearing notice) | Project Lead | Docket No.      | Applicant                                   | Project Description (As NAR'd - descriptions may change for the hearing notice)   | Municipality     | County              | State | State Regional Office | Located in SPW? (Upper, Middle or Lower) | Type of Renewal or New Project | Type of Project | Type of Water Supply | Items Needed From Applicant   | Items Needed From State                    | Date Application Received | Date of NAR |
|--|--------------|-----------------|---|---|------------------|---------------------|-------|-----------------------|--|--------------------------------|-----------------|----------------------|-------------------------------|--|---------------------------|-------------|
| 12/12/2006   | PS           | D-1974-057 CP-2 | Deposit, Village of                         | An application for approval of a WWTP expansion project to provide secondary treatment to up to 0.7 mgd, which is an increase of 0.1 mgd in the existing capacity. The WWTP discharges effluent to the West Branch Delaware River in DRBC Water Quality Zone W1. The project is located in the Upper Delaware Special Protection Waters Drainage Area in the Village of Deposit, Broome and Delaware Counties, New York. The WWTP will continue to serve the Village of Deposit and may serve the Town of Deposit, Delaware County, New York in the future.   | Town of Deposit  | Delaware            | NY    | 4 and 7               | Yes - Upper                              | B                              | WWTP            | N/A                  | No measurable change analysis |  | 3/3/2006                  | 3/30/2006   |
|  | CP           | D-1988-007-2    | Villa Roma Country Club, Inc.               | WWTP Expansion . Located in Callicoon, Sullivan County, New York.   | Callicoon        | Sullivan            | NY    | 3                     | Yes                                      | B                              | WWTP            | N/A                  |                               |  | 9/7/2006                  |             |
|  | WM           | D-2001-038 CP   | Mirant NY-Gen, LLC                          | Approval of new operating plan for the existing Mongaup System reservoirs. The Mongaup River flows thru Orange & Sullivan Counties in NY State before it reaches the De. River about 8 river miles upstream from Port Jervis, NY. The project facilities include the Toronto, Cliff Lake & Swinging Bridge Reservoirs, the latter of which provides hydroelectric power & receives flows from the former. In addition, the applicant makes releases from & generates hydroelectric power via its Mongaup Falls & Rio Reservoir facilities, also in the Mongaup River Basin. During relicensing by FERC, the proposed Mongaup System release program was designed to meet new stream flow objectives for the Mongaup River, while still maintaining reservoir recreational uses, supplying hydroelectric power & providing drought emergency storage for releases from its reservoir system to supplement flow at the Commission's request. The new operating plan must be reviewed for compatibility with, & possible revision of, the DRBC Comp. Plan; the Mongaup System is already included in the DRBC Comp. Plan for management of Lower Basin dro |                  | Orange and Sullivan | NY    | 3                     | Yes                                      | C                              | Other           | N/A                  |                               |  |                           | 8/10/2001   |
|  | PS           | D-2003-027 CP   | Akwasasne Mohawk Mountain Resort and Casino | An application for approval of a ground water withdrawal project to supply up to 0.56 million gallons per day (mgd) (16.272 million gallons per 30 days) to serve a proposed 750 room hotel and casino located at Kutscher's Country Club off Anawana Lake Road in the Town of Thompson, Sullivan County, New York. A 0.44 mgd sewage treatment plant is also proposed to provide advanced treatment of project wastewater prior to discharge to Anawana Brook in the Neversink River Watershed within the drainage area of DRBC Special Protection Waters.   | Town of Thompson | Sullivan            | NY    | 3                     | Yes                                      | C                              | GWWD / STP      | Public               |                               | State approval.                            | 9/24/2003                 | 9/29/2004   |
|  | PS           | D-2004-037-1    | Triple Star Property Group, LLC             | An application to construct a 0.032 million gallon per day sewage treatment plant (STP) to serve a proposed housing development on a 98 acre parcel off State Route 55 (Neversink Road) in the Town of Liberty, Sullivan County, New York. The proposed STP will provide tertiary treatment of flow from 162 dwelling units prior to discharge to an unnamed tributary of Trout Brook in the East Branch Mongaup River Watershed, upstream from the Mongaup Reservoir System and DRBC Special Protection Waters.  | Town of Liberty  | Sullivan            | NY    | 3                     | Yes - Tributary of Middle Delaware       | C                              | WWTP            | N/A                  |                               | State approval - SPDES Part I and Part II. | 12/13/2004                | 1/26/2005   |
|  | PS           | D-2005-002-1    | Mountain Hill Cottages                      | An application to upgrade the septic system that serves the Mountain Hill Cottages development located off Cold Spring Road approximately 2,000 feet north of its intersection with Cantrell Road in the Town of Thompson, Sullivan County, New York. An additional septic system will be constructed to treat 5,250 gallons of flow. The effluent from the proposed septic system will be routed to a 14,000 gallon per day sand filter, which recharges the groundwater. No expansion of the sand filter is required, but a new chlorine contact tank will be provided. The project is in the Bush Kill Watershed, upstream from its confluence with the Neversink River in the drainage area of DRBC Special Protection Waters.  | Town of Thompson | Sullivan            | NY    | 3                     | Yes                                      | C                              | WWTP            | N/A                  |                               | State approval - SPDES Part II.            | 1/24/2005                 | 2/15/2005   |

|  | PS           | D-2005-012-1 | KSA, Inc. | An application to construct a 0.04 million gallon per day (mgd) Wastewater Treatment Plant (WWTP) to serve a proposed residential summer camp in the Town of Hancock, Delaware County, New York. The WWTP will provide advanced treatment of wastewater prior to discharge to an unnamed tributary of Bouchoux Brook in the drainage area of DRBC Special Protection Waters. The proposed WWTP is located off Gilleran Road at the south shore a 47-acre lake known as Sand Pond. It will discharge downstream from Sand Pond. | Town of Hancock | Delaware | NY    | 4                     | Yes - Tributary of Upper Delaware        | C                              | WWTP            | N/A                  | No measurable change analysis. | State approval - SPDES Part I and II. | 4/8/2005                  | 6/10/2005   |
